# E. L. ROSER'S STRAWBERRY CATALOGUE.

---

⇒1895⇐

---

**PATRONS :-**

Thanks for past favors. Your interests are best served by placing varieties on their merits and using the time and expense of printing testimonials, in labeling and packing with extra care. All plants are freshly dug, well grown, true to name, packed in moss in the best possible manner and warranted to reach my customers in excellent condition for immediate planting. No substitution. You get what you buy or your money refunded. If the selection is left to me, standard varieties succeeding over a wide range will be sent. My determination is to keep abreast of all real improvement by adding the new varieties of promise to the list as they come before the public. Layer plants set in rich soil, eight inches apart each way, watered and shaded for a few days, transplanted in two weeks with a shovelfull of dirt adhering to each plant are more satisfactory than potted plants.

Send in July or August for a list of the new varieties, purchase layers at half the cost of potted plants, and plant as directed. By giving two weeks notice, plants will be potted at one and one-half cents per plant additional to the prices by mail.

Shipped by express only.

---

## VARIETIES INTRODUCED THIS YEAR.

**Fremont, S.**—“Fruit medium size, dark crimson, glossy, conical, moderately firm and best quality. Plant productive, vigorous, healthy, with stooling habit, making plenty of plants, valuable as a late berry for home use.” Not fruited, plants my own growing, 50 cents per dozen.

**Roser's No. 1, S.**—Plant vigorous, making many runners, productive, and reliable on any soil. Fruit firm, medium size, dark red, conical and good quality. Valuable as an early berry for home use. Fruited four seasons. Plants my own growing, 50 cents per dozen; \$3 per hundred.

**Weston, P.**—Professors Taft and Gladden of the Michigan Experiment Station, say: “Fruit large, productiveness 9.8, quality 8, firmness 8.5. Plants very strong and healthy. Crop held out best of any variety.” Not fruited. Plants not my own growing, but sent direct from the introducer to my customer. Send your name and address on a postal and receive a Weston Circular if none with this catalogue. \$2 per dozen; \$12 per hundred.

Six at dozen, 50 at 100 and 500 at 1,000 rates.

If 500 plants are purchased, deduct ten cents from the price per dozen and hundred by express. Special prices on larger lots; Pistillate varieties marked "P" should have every third or fourth row planted to a staminate variety marked "S" to fertilize them.

**Full faced letters** and CAPITALS indicate preference for general cultivation, except in varieties not fruited they indicate vigor of plant.

Plants by mail prepaid; by express not prepaid.
